

HOWE GREEN CPD SEMINARS

Howe Green is one of the world's leading manufacturers of floor, wall and ceiling access hatches, entrance matting systems and channel drainage using mainly non ferrous metals. Through its outstanding brand name it has always been at the forefront of design and is valued around the world for its quality. Howe Green works closely with industry professionals at all stages of the building process to provide comprehensive Technical Support assistance with relation to the design, specification, installation and maintenance of its products.

Seminar One:

Design and Use of Fabricated Internal Floor Access Covers

Objectives:

- Outline details of the industry standards.
- Design, manufacturing & specification details.
- Overview of installation procedures.
- Illustration & discussion of installation examples.

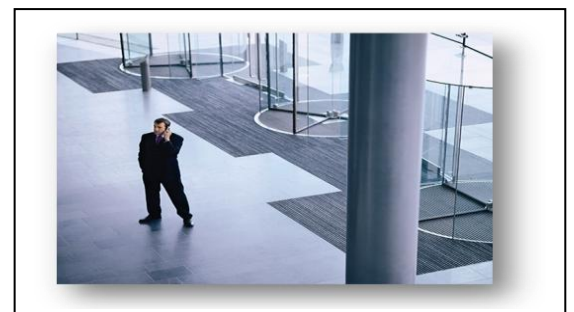

Seminar Two:

Entrance Matting Systems; Maximising Performance, Minimising Risk.

Objectives:

To provide an understanding of the:

- Requirements for entrance matting systems.
- Relevant British Standards.
- Considerations for design concepts.
- Installation requirements.
